Is appearance important?

APPEARANCE

from my perspective

- ◆ One of the things that can get people interested
- ◆ Make the eyes more comfortable

! Then ...
LibreOffice allows customization
on its looks

BASIC CONCEPT

LibreOffice Directory

Linux

`/usr/lib/libreoffice` atau `/opt/libreofficeX.X`
`~/.config/libreoffice`

Mac OSX

`/Application/LibreOffice.app`
`~/Library/Application Support/LibreOffice`

Windows

`C:/Program Files/Libreoffice`
`C:/users/$USER/AppData/Roaming/libreoffice`

some things we will change

Will we do it manually?

Yes, but not now!
:p

Linux Only

install theme

```
curl https://raw.githubusercontent.com/raniaamina/libreoffice-theme/master/install | bash
```

uninstall theme

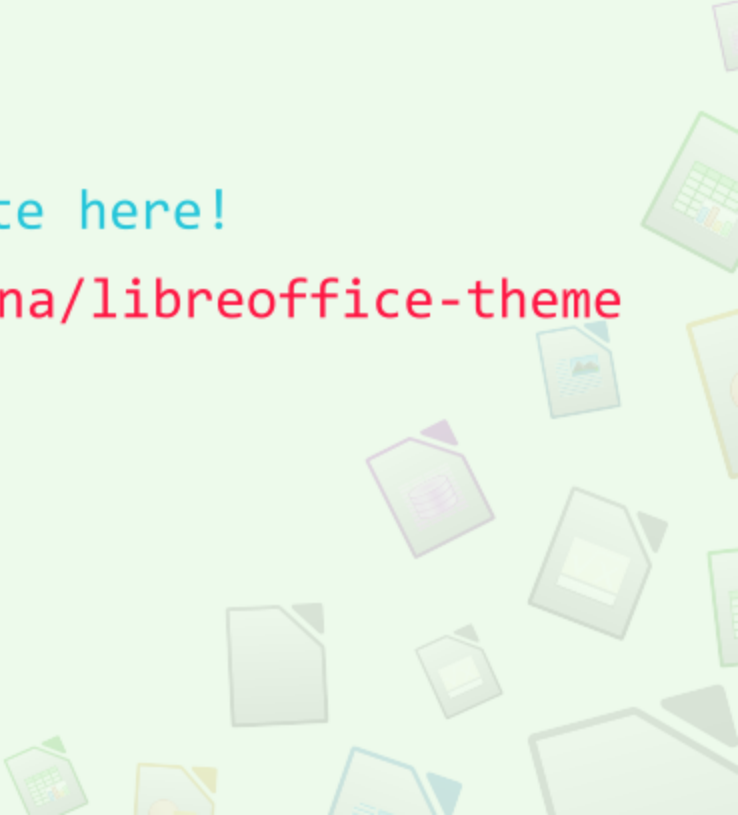

```
curl https://raw.githubusercontent.com/raniaamina/libreoffice-theme/master/uninstall | bash
```

So, how about other OS?

let's contribute here!
